## Otto Wagner Stadtbahn Tours

Otto Wagner (1841-1918) was a pioneer of Modern Architecture. In 1894 he began work on design of Vienna's Stadtbahn (city railway). The Stadtbahn lines are still used by Vienna's U-Bahn (underground) and S-Bahn (regional rail) systems. On the next page I've outlined four tours to highlight the best of Wagner's remaining stations and list nearby attractions:

- N **Wiental Line Tour (U-4)**
- N **Gürtel Line Tour (U-6)**
- N **Vororte Line Tour (S-45)**
- N **Donau Kanal Tour (U-4)**
